

Contents Volume 75, 1992

| | |
|---|-----|
| A reinvestigation of <i>Diichnia</i> Read from the New Albany Shale of Kentucky C.B. Beck (Ann Arbor, MI, USA), J. Galtier (Montpellier, France) and W.E. Stein, Jr. (Binghamton, NY, USA) | 1 |
| Jurassic dinoflagellate cyst biostratigraphy of the Danish Subbasin in relation to sequences in England and Poland; a preliminary review N.E. Poulsen (Copenhagen, Denmark) | 33 |
| De nouveaux restes fossiles attribués aux Araucariacées dans les calcaires lithographiques du Crétacé inférieur du Montsec (province de Lérida, Espagne) G. Barale (Villeurbanne, France) | 53 |
| Two sapindaceous woods from the London Clay (Eocene) of southeast England I. Poole (Egham, UK) and H.P. Wilkinson (Kew, UK) | 65 |
| Efficacité de l'analyse mélitopolynologique quantitative pour la certification des origines géographique et botanique des miels: le modèle des miels corses M.-J. Battesti and C. Goeury (Marseille, France) | 77 |
| Evaluation of differential pollen deposition and pollen focussing from three Holocene intervals in sediments from Lake O'Hara, Yoho National Park, British Columbia, Canada: intra-lake variability in pollen percentages, concentrations and influx A.B. Beaudoin and M.A. Reasoner (Edmonton, Alta., Canada) | 103 |
| Histoire et dynamique du marécage tropical de Ndurumu (Burundi), données polliniques D. Jolly and R. Bonnefille (Marseille, France) | 133 |
| Permian sphenophytes from the Collie and Perth Basins, Western Australia S. McLoughlin (Nedlands, W.A., Australia) | 153 |
| The genus <i>Glossopteris</i> from the Late Permian beds of Handapa, Orissa, India S. Chandra and K.J. Singh (Lucknow, India) | 183 |
| On the fern <i>Pectinangium</i> Li et al., emend. (Marattiales), with spores in situ from the Permian of southern China Z. Wan and J.F. Basinger (Saskatoon, Sask., Canada) | 219 |
| A comparison of modern pollen rain and vegetation in southwestern Sichuan Province, China D.I. Jarvis and S.T. Clay-Poole (Seattle, WA, USA) | 239 |
| Distinguishing the pollen of deciduous oaks, evergreen oaks, and certain rosaceous species of southwestern Sichuan Province, China D.I. Jarvis, E.B. Leopold (Seattle, WA, USA) and Y. Liu (Beijing, China) | 259 |
| Palaeobotanical analyses of <i>Eriophorum</i> and <i>Molinia</i> tussocks as a means of reconstructing recent history of disturbed mires in the Haute-Ardenne, Belgium F. Damblon (Louvain-la-Neuve, Belgium) | 273 |
| A new Theacean wood from the Cretaceous of northern Sudan B. Giraud (Paris, France), R. Bussert and E. Schrank (Berlin, Germany) | 289 |
| Pollen apertures, exine sculpturing and phylogeny in Iridaceae subfamily Iridoideae P. Goldblatt (St Louis, MO, USA) and A. Le Thomas (Paris, France) | 301 |
| Development of spinous exine in <i>Nuphar japonicum</i> De Candolle (Nymphaeaceae) M. Takahashi (Takamatsu, Japan) | 317 |
| Nothofagidites Erdtman ex Potonié, 1960: a catalogue of species with notes on the palaeogeographic distribution of <i>Nothofagus</i> Bl. (<i>Southern Beech</i>), by Mary E. Dettmann, David T. Pocknall, Edgardo J. Romero, and Maria del Carmen Zamaloa — S. Archangelsky | 323 |
